DIVERSITY OF DESIGN

PLEXIGLASS

WOOD IMITATION

GLASS

STAINLESS STEEL

DIVERSITY OF SHAPES

Roundness

Rounded forms always attract the attention of the eye and produce a favorable impression on the target audience. At the same time, functionality should not suffer for the sake of aesthetics - a key factor for the designer, critically important for consumption market

Classics

Many years of experience in design, maintenance supervision has established a classic design in the development and design of checkout counter equipment, which is very popular in many target markets.
